

PURPOSE	PRODUCT	DESCRIPTION	DOSAGE	ORDER NO.
Additives for conventional printing inks and varnishes				
Reducing tack	Thinner Paste	Reduces the tack and viscosity. Mineral oil-based	max. 5%	10 T 9998
	PRINTGEL	Mineral oil-free thinner paste	max. 5%	10 P 700409
	THIXOPRINT	Mineral oil-free thinner paste	max. 5%	10 T 0256
	CORONA Printpaste	Mineral oil-free thinner paste with drier	max. 20%	10 T 3322
	LINSEED OIL / PRINTOIL	Reduces the tack and viscosity	max. 5%	10 T 1405
Ink film protection	Starch Paste	Starch paste reduces the risk of deposits in the stack	max. 3%	10 T 7442
	Wax-Paste	Improves the rub resistance of conventional sheet-fed offset inks	max. 3%	10 T 4100
Accelerating the drying process	MONSUN Drier	Drier paste for all conventional sheet-fed offset inks	max. 3%	10 T 7265
	INK ACTIVE DRIER	Special auxiliary drying agent for ink systems used on less- and non-absorbent substrates	max. 3%	10 T 5002
Slowing down the drying process	ACRYLAC RETARDER	Against cracking	max. 2%	10 T 0422
Optimising wetting	ACRYLAC SURFACE ACTIVE AGENT	Against wetting disorders for applications with high ink coverage	max. 2%	10 T 0690
Reducing foaming	ACRYLAC ANTI-FOAM	Defoamer additive	max. 0,2%	10 T 0423

Additives for GAN inks				
Reducing tack	Thinning Agent GAN	Reduces the tack and viscosity. Mineral oil-free	max. 5%	10 GAN 9998
	Thinning Oil GAN	Reduces the tack and viscosity. Mineral oil-free	max. 5%	10 GAN 1405

Additives for MGA inks and coatings				
Reducing tack	CORONA MGA Printoil	Reduces the tack and viscosity. Mineral oil-free	max. 5%	10 MGA 1405 M
	CORONA MGA Thinningpaste	Reduces the tack and viscosity. Mineral oil-free	max. 5%	10 MGA 9998 M
Slowing down the drying process	ACRYLAC MGA Retarder	Against cracking	max. 2%	58 75 677
Reducing foam	ACRYLAC MGA Defoamer	Defoamer additive	max. 0,2%	58 04 29

Additives for CORONA Label MGA inks				
Reducing tack	CORONA Label MGA Printoil	Reduces the tack and viscosity. Mineral oil-free	max. 5%	10 MGL 1405
Accelerating the drying process	INK Active Drier MGL	Special auxiliary drying agent for ink systems used on less- and non-absorbent substrates	max. 1,5%	10 MGL 5002

Cleaning agents, sprays and other additives				
Idling printing units	Idling Paste	Protects idling printing units		10 T 7200
Freshening up	INKFIT	Freshens up conventional printing inks on the rollers. Without propellants. Mineral oil-based		10 T 3303
Preventing skinning	ANTISKIN	Antiskinning agent without propellants. Mineral oil-free		10 T 1220
Cleaning Rollers	Lime-X	Removes calcium deposits		10 T 0100
	ACRYLAC Cleaner	Roller cleaning solution – also for MGA		10 T 0145
Cleaning	ACRYLAC Fit	Reduces tackiness on rollers, rubber blankets and printing plates		10 T 0606
Hardening water	SALINOFIX	Hardening additive for purified water for targeted adjustment of the total hardness	0,5%	5005 09
Cleaning fount solution systems	SYSTEM CLEANER	Cleaning concentrate for fount solution systems	5-7%	8080 09
Reducing foam	Defoamer	Defoamer for fount solution systems	max. 0,05%	8113 09

MGA sprays				
Freshening up	INKFIT MGA	Freshens up conventional printing inks on the rollers. Without propellants. Mineral oil-free		10 MGL 3303
Preventing skinning	ANTISKIN MGA	Antiskinning agent without propellants. Mineral oil-free		10 MGL 1200
